Human Exposure / Adverse Effect Incidents Involving Monsanto Agricultural Products

Reporting Categories: H-A, H-B, H-C

Reporting Period: June 1, 2018 – June 31, 2018

Substance:	Roundup Herbicide from Monsanto
Serial Number:	32482742
Date:	06/25/2018
Medical Outcome:	Major Effect H-B
EPA Reg. No.	524-445
Active Ingredients:	Glyphosate 41%
State:	New Jersey
History and Notes:	<p>Caller, who is 88 years old, reports a few days ago after using Roundup to spray weeds, he developed pulmonary problems. He was wearing rubber gloves while spraying, but then took them off and the product spilled on his skin. He washed it off right away. Two days after using it he was so short of breath, going up and down stairs, he had to stop and rest. He went to his doctor and he said he has COPD. He never had symptoms before this happened. Does not specifically remember the product spraying in his face or inhaling it. MRPC discussed the product toxicity. The symptoms do not correlate with the expected response to the product. Advised to follow the treatment for COPD according to the physician.</p>
